

ALFRESCO DINING

Alfresco has a fully-welded 50mm box section stainless steel frame.

The seat and table top are made from damage-resistant 12mm thick Solid Grade Laminate (SGL). Easy to maintain, impact-resistant, and has antibacterial properties that can prevent the growth of mildew and mould makes this material one of the best for outdoor uses.

Sizes for Alfresco seats and tables range from 1000mm long up to 3000mm in increments of 200mm.

Options for floor fixing foot brackets can be requested upon purchase.

STANDARD FEATURES

Fully welded stainless steel frame in 50mm box section.
12mm thick Solid Grade Laminate (SGL) with a black core as both the table tops and seats.
Finished with stainless steel adjustable feet or floor fixing brackets for protector and security.

DESIGN By Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us. personal taste.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.
