

DINE STEEL

Dine Steel is a range of standalone rectangular tables and benches designed for dining, breakout or meeting areas. These industrial looking frames are very popular due to their sturdy features and amazing ability to suit every environment its designed for.

Table frames are 50mm thick box section steel while benches are 25mm x 50mm thick. With a huge range of RAL power coat finishes

and option of 25mm thick or 50mm thick HPL laminate tops, there is a way to create a bespoke product for every need. Tables and Benches are available in lengths up to 3000mm, and tables can be 750mm or 1050mm high for working or dining applications.

STANDARD FEATURES

Welded mild steel frame in 50mm box section.
Frame covered with powder coated paint.
Either a 25mm thick or 50mm thick HPL Laminate top with MDF core.
Both tops complete with 2mm ABS edging.
Finished with stainless steel adjustable feet.

DESIGN By Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us. personal taste.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.
