

Solitude

Single Person Pod

The Solitude Pod was one of our original single person pods. This upholstered shaped pod was designed for standing and setting up for temporary work. With fully upholstered curved edges, it helps with acoustic absorption at times when a conversation need more serenity.

Solitude Pods are supplied with a wave-shaped table that is fitted to the walls, and

is constructed using 18mm Senator standard MFC. It has a circular pixel power module (1x power and 1x USB) positioned under the table top.

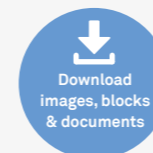

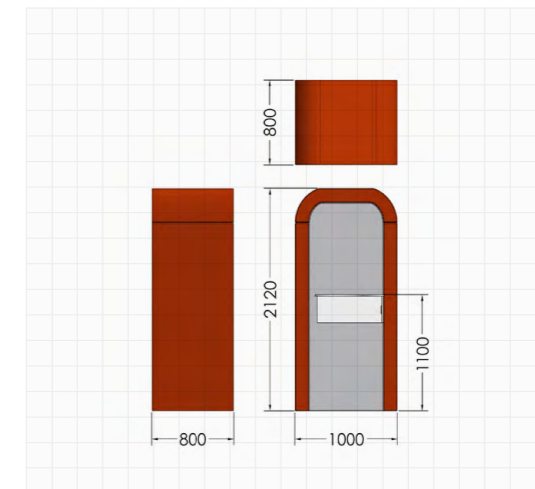

However unlike all our other pods, Solitude does not have overhead lighting.

Our Solitude Pods are 800mm deep, 2120mm high and a comfortable 1000mm wide as standard.

Solitude Pods include power sockets with added USB components. Please get in touch if you require any more information.

Solitude Pods are supplied KD to be assembled onsite
